

REPEL

Fabric Treatment

CLEANING SOLUTIONS FOR THE HEALTH OF YOUR BUSINESS.

REPEL

Fabric Treatment

REPEL is a miraculous fabric treatment to make any garment repel liquids. It can be used to waterproof outerwear or to make medical garments repel blood or body fluids that may be hazardous. It also makes fabrics much easier to clean since soils cannot soak into the weave.

Waterproof any fabric.

Economically restores expensive medical garments.

Prevents any water based fluid absorption into fabric.

Easy to use.

Non-hazardous.

PACKAGING:

55 gal drum (#797055)

PROPERTIES:

Color - White	Hard Water Tolerance -
Fragrance - Mild	Not affected
pH - 4.0-8.0	Fumes - None
Detergency - None	Flash Point - None
Wetting - None	Corrosive Factor - None
Emulsification - None	Shelf Life - 1 year

BAR CODE & CUBE INFORMATION:

Dimensions - 24 x 24 x 35
Weight - 455
Cube - 11.667
PKG/Layers - 4
Layers - 1
Pallet - 4
Hazardous - No
UPC Code - 784331797074

SAFETY:

Read label carefully before use. For industrial and institutional use only by trained personnel. Keep out of reach of children. For further information, consult the Safety Data Sheet.

DIRECTIONS FOR USE:

Add product to the final rinse or apply as a separate step to new fabrics.

Fill the washer to a medium to high level with warm (90-110 F) water. Start rotation. Add product at the rates shown below and allow the machine to run for 10 minutes. Drain, then run a short extract to remove free water, but leave the fabric fairly damp. Dry at a high temperature (200 F if possible). Re-treat as needed.

Usage Rates:

New, untreated fabrics: 2 ounces per pound of fabric
Previously treated fabrics: 1 ounce per 10 pounds of fabric
