pH - NA	Fumes - None
pH, Use Solution - 11.0-12.0	Flash Point - None
Detergency - Excellent	Corrosive Factor - Non-Corrosive
Wetting - Excellent	Shelf Life - 1 year
Emulsification - Excellent	

BAR CODE & CUBE INFORMATION:

Dimensions - 5.25 x 10.25 x 8.5
Weight - 14
Cube - 0.265
PKG/Layers - 28
Layers - 4
Pallet - 112
Hazardous - No
UPC Code - 10784331785719

SAFETY:

Read label carefully before use. For industrial and institutional use only by trained personnel. Keep out of reach of children. Harmful if swallowed. Causes severe skin burns and eye damage. May cause respiratory irritation. For further information, consult the Safety Data Sheet.

TRIFECTA is a revolutionary solid detergent for institutional laundering. Penetrates beyond the surface to clean down deeply into fabrics. It contains special ingredients to clean ground in clay, grass, and blood stains from athletic uniforms. Provides the delicate cleaning required by makers of athletic uniforms to protect the fabrics from damage or color transfer. Versatile to use for washing other linens too.

Safe, non-caustic detergent powers out tough soils, odors, and stains.

Specially formulated for washing athletic uniforms with mild detergents but very effect cleaner, even at the low (90-110°F) temperatures recommended by uniform manufacturers.

Removes stains common to uniforms: grass, clay, blood, and other soils.

Requires substantially less inventory and storage space.

Reduces formula times, providing energy, water, and labor savings.

Gentle on linens, extends linen life and reduces replacement cost.

Outstanding detergent system for commercial or top-load machines.

Excellent results in soft or very hard water conditions.

Approved for use in High Efficiency (HE) machines.

DIRECTIONS FOR USE:

Remove cap and place container upside down in the dispenser bowl.

Top Load Washer: Open machine. Begin filling with warm water (90-110°F). Place "down tube" in machine and push button on dispenser to add detergent before adding fabrics. Return "down tube" to holder when dispenser stops. Close cover on machine.

Commercial Washer: Detergent is automatically injected into the machine. See your Sunburst Representative for specific instructions.
