LACROSSE

Grease Trap Treatment - Biological B

LACROSSE is a solid bacterial product used to break down and digest organic materials that can plug drains and grease traps. Regular treatment controls odor, prevents troublesome drain blockage and reduces expensive grease-trap pumping costs.

Great for use in septic tanks and drain fields.

Made with all rapidly biodegradable materials.

Contains no phosphate, volatile organic compounds, NPEs, or pH contributors.

Bacterial sources are not harmful to humans or animals. Certified Salmonella-free.

Keeps drain lines free-flowing and grease traps functioning properly, reducing BODs, CODs and suspended solids.

Eliminates odors from drains and grease traps.
